

K-LOVE provides a great service to us in the local San Angelo, Tx, community. The affect of K-LOVE being displaced by an LPFM broadcaster providing other programming would be great. I think that this proposal should be turned down and that radio stations such as K-LOVE should be allowed to continue operating as they currently are. K-LOVE gives us in the military a sense of community when we transfer to a new location and are still able to hear a local K-LOVE broadcast.

Thank you for allowing me this opportunity to voice my opinion.
